Jennifer Daddow Carer and Community Education Officer

Jennifer Daddow has extensive experience as a health and community adult educator, community development worker and project co-ordinator. She has worked with a range of diverse groups in the community, welfare and health sectors. Jennifer joined the Education and Training team at Carers Victoria in 2008. In that role she enjoys educational opportunities to improve carer health and wellbeing, facilitating workshops for carers and service providers. Jennifer has a Masters' Degree in Health, and is a qualified workplace trainer and assessor.

Sarah & Jackie Tidey

Sarah was diagnosed with ovarian cancer, Stage 3C in September 2015 aged 47. Following a hysterectomy and debulking surgery she had six sessions of chemotherapy. Her Mum, Jackie, with whom she has always been close has been a great support to her throughout treatment and since the recurrence of her cancer in November last year. They both enjoy books, art, music, movies and spending time with friends and family. One of the positive things to come out of Sarah's diagnosis has been all the time they have spent together.
